Why check suite

STA, DRC, LVS, ERC, antenna, and IR form the toy check suite

The idea

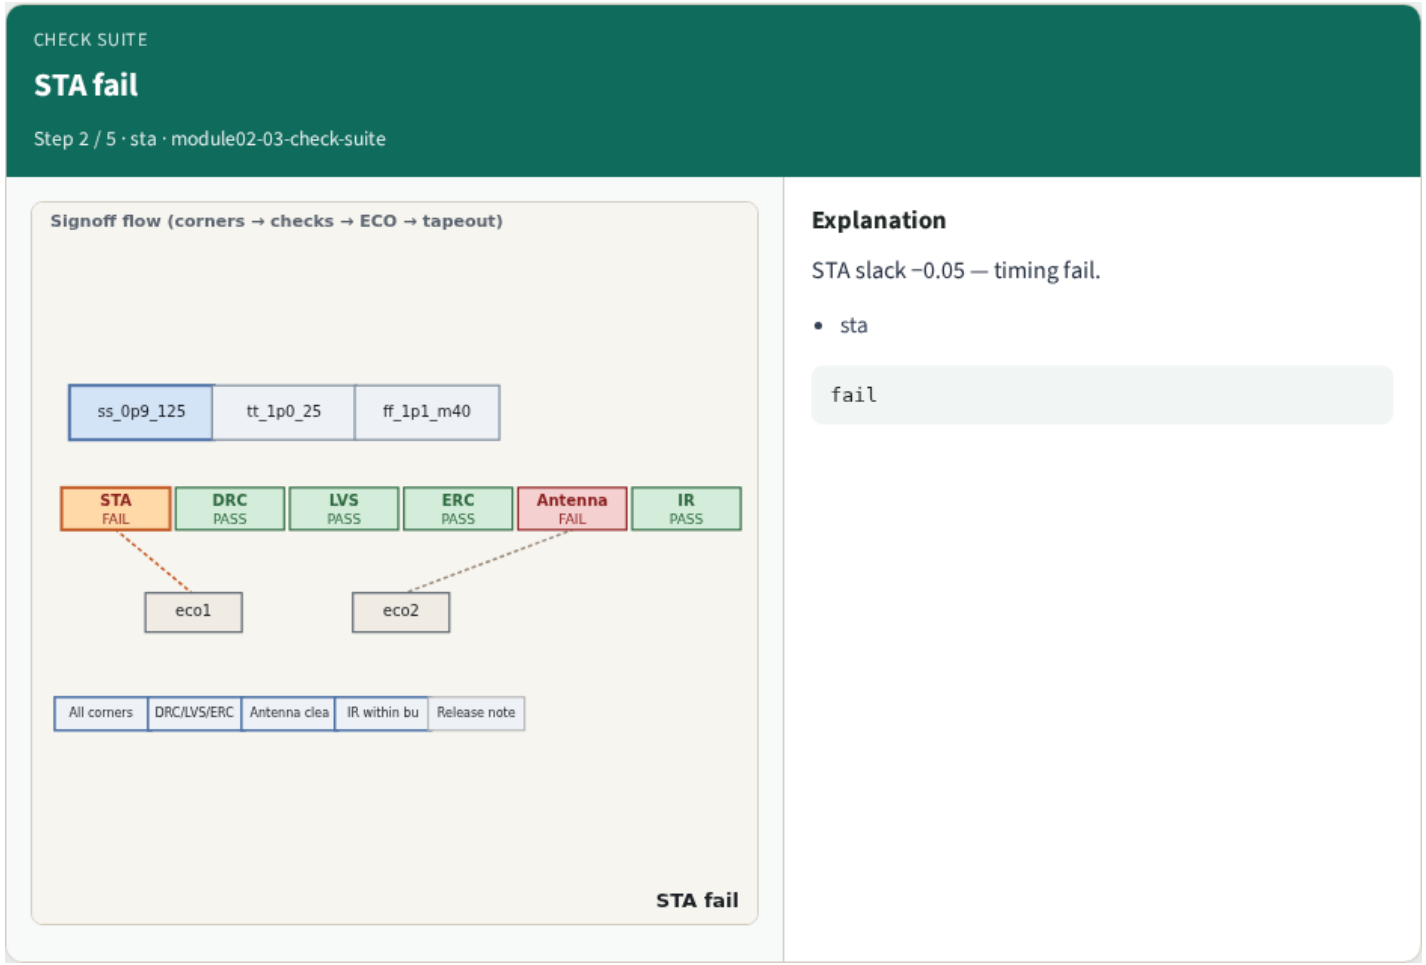

- GOLDEN: fail_count=2, pass_count=4

Six checks

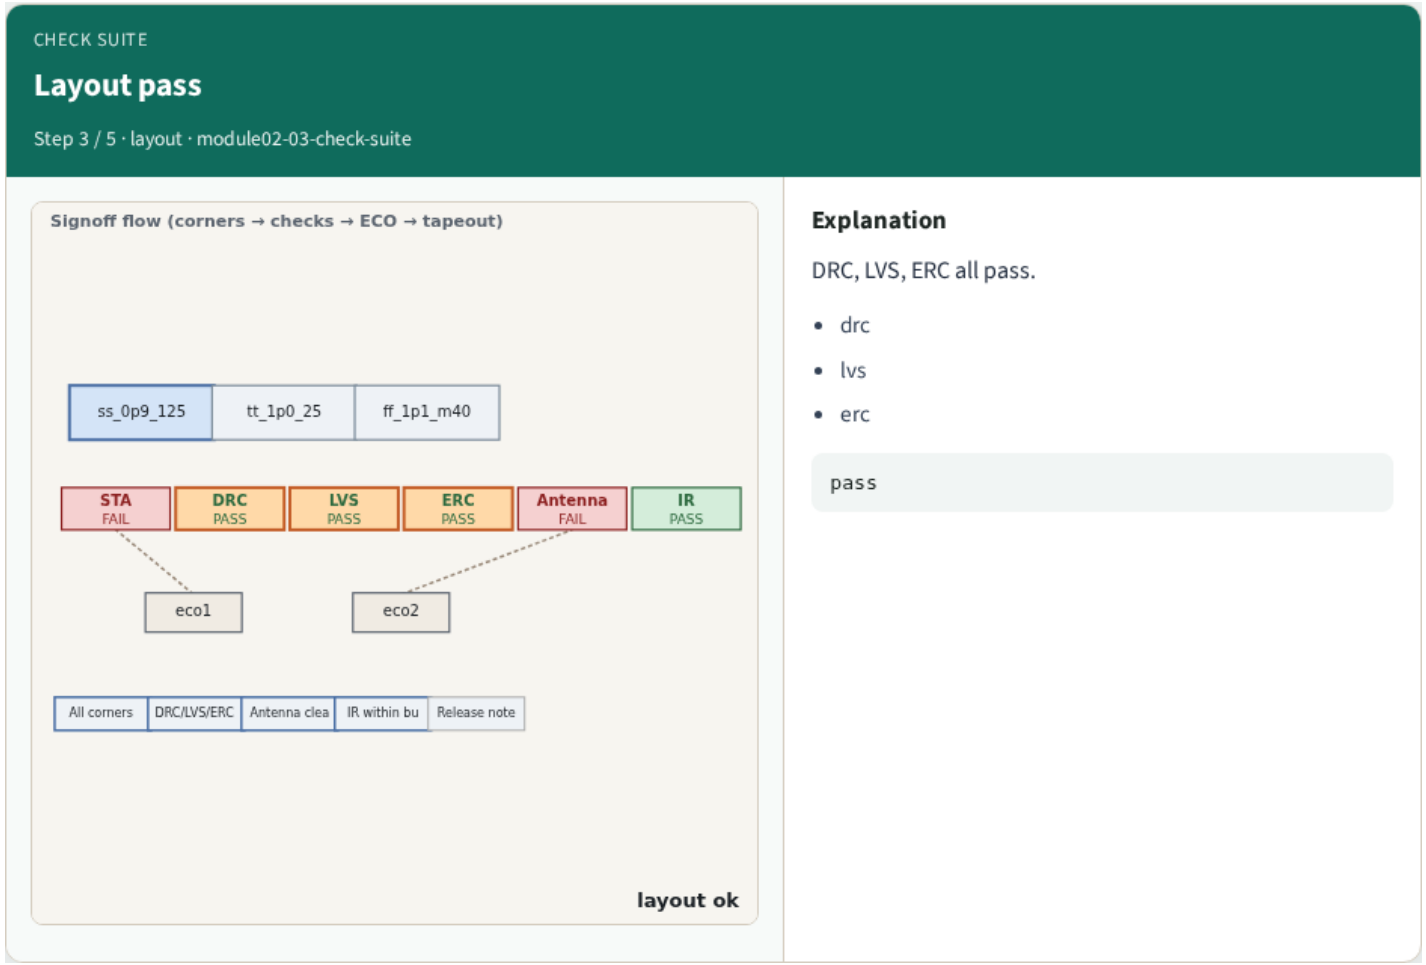

Six checks

STA fail

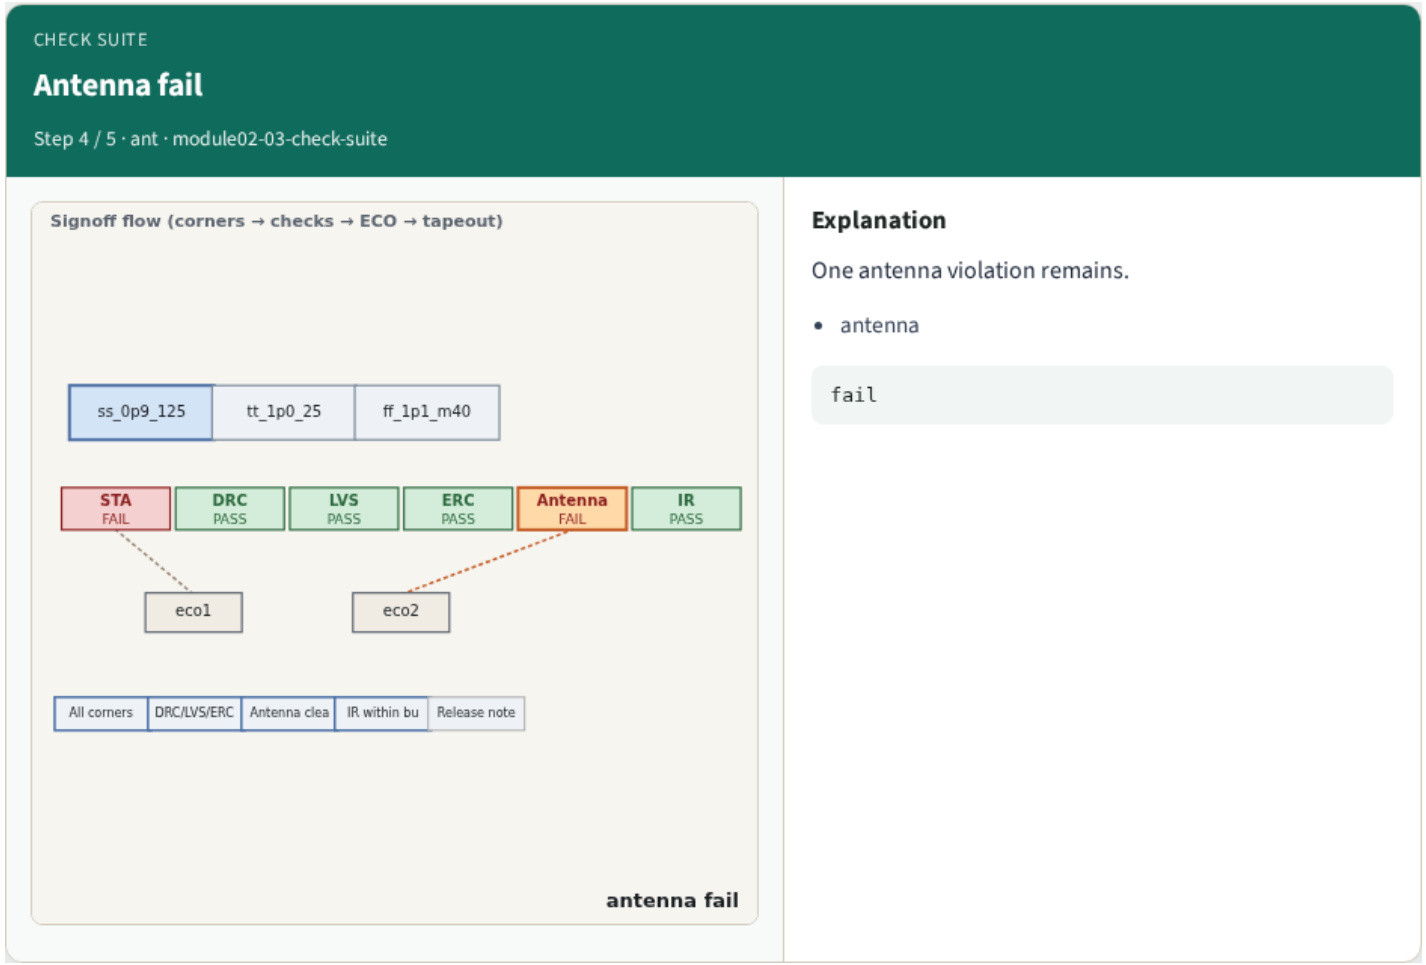

STA fail

Layout pass

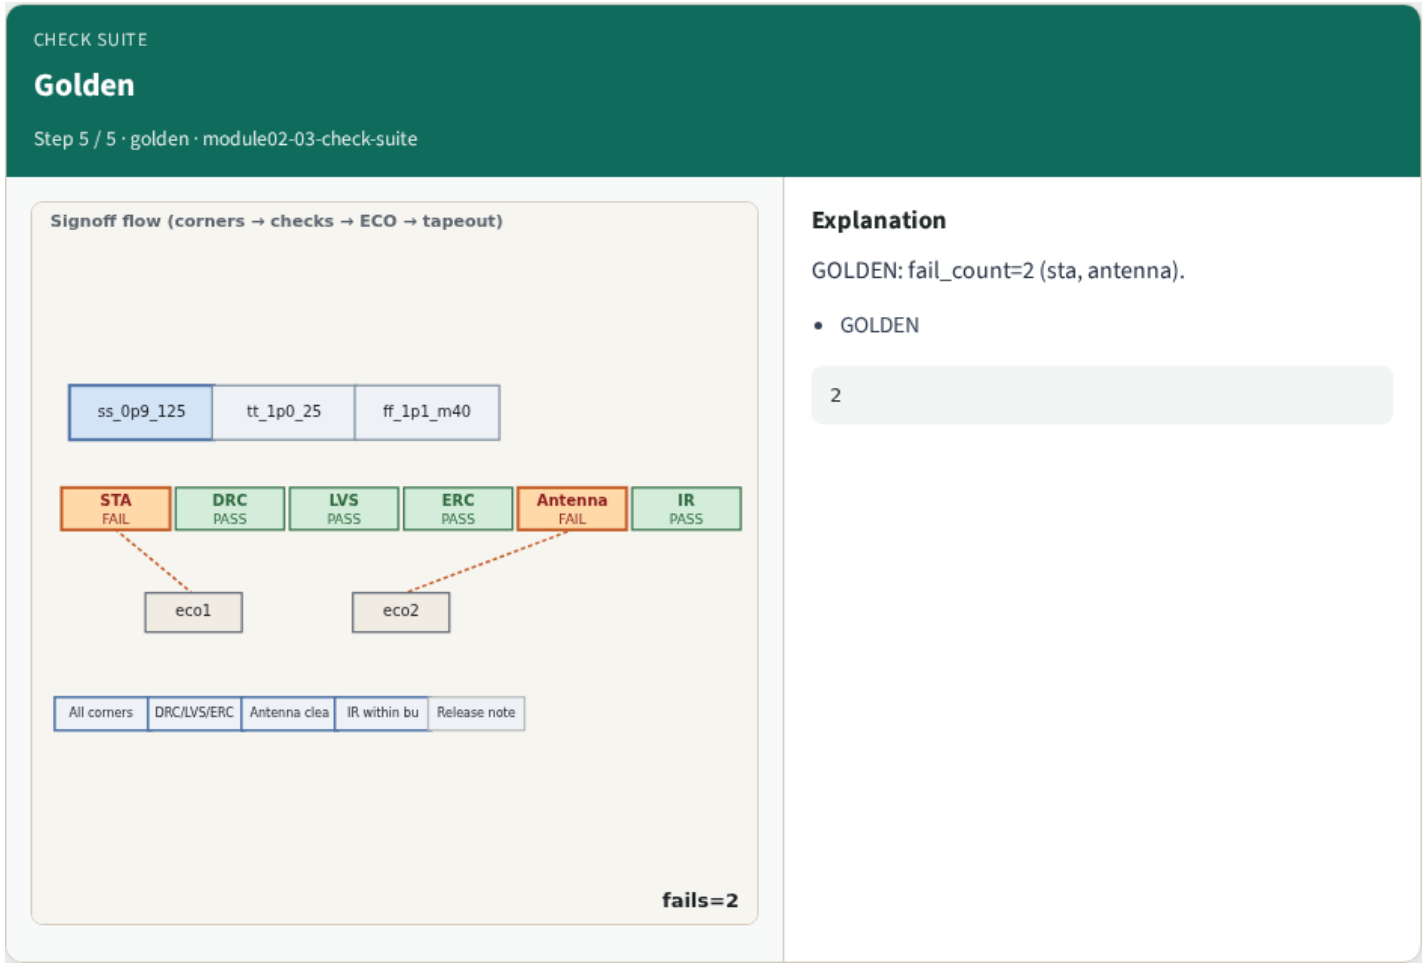

Layout pass

Antenna fail

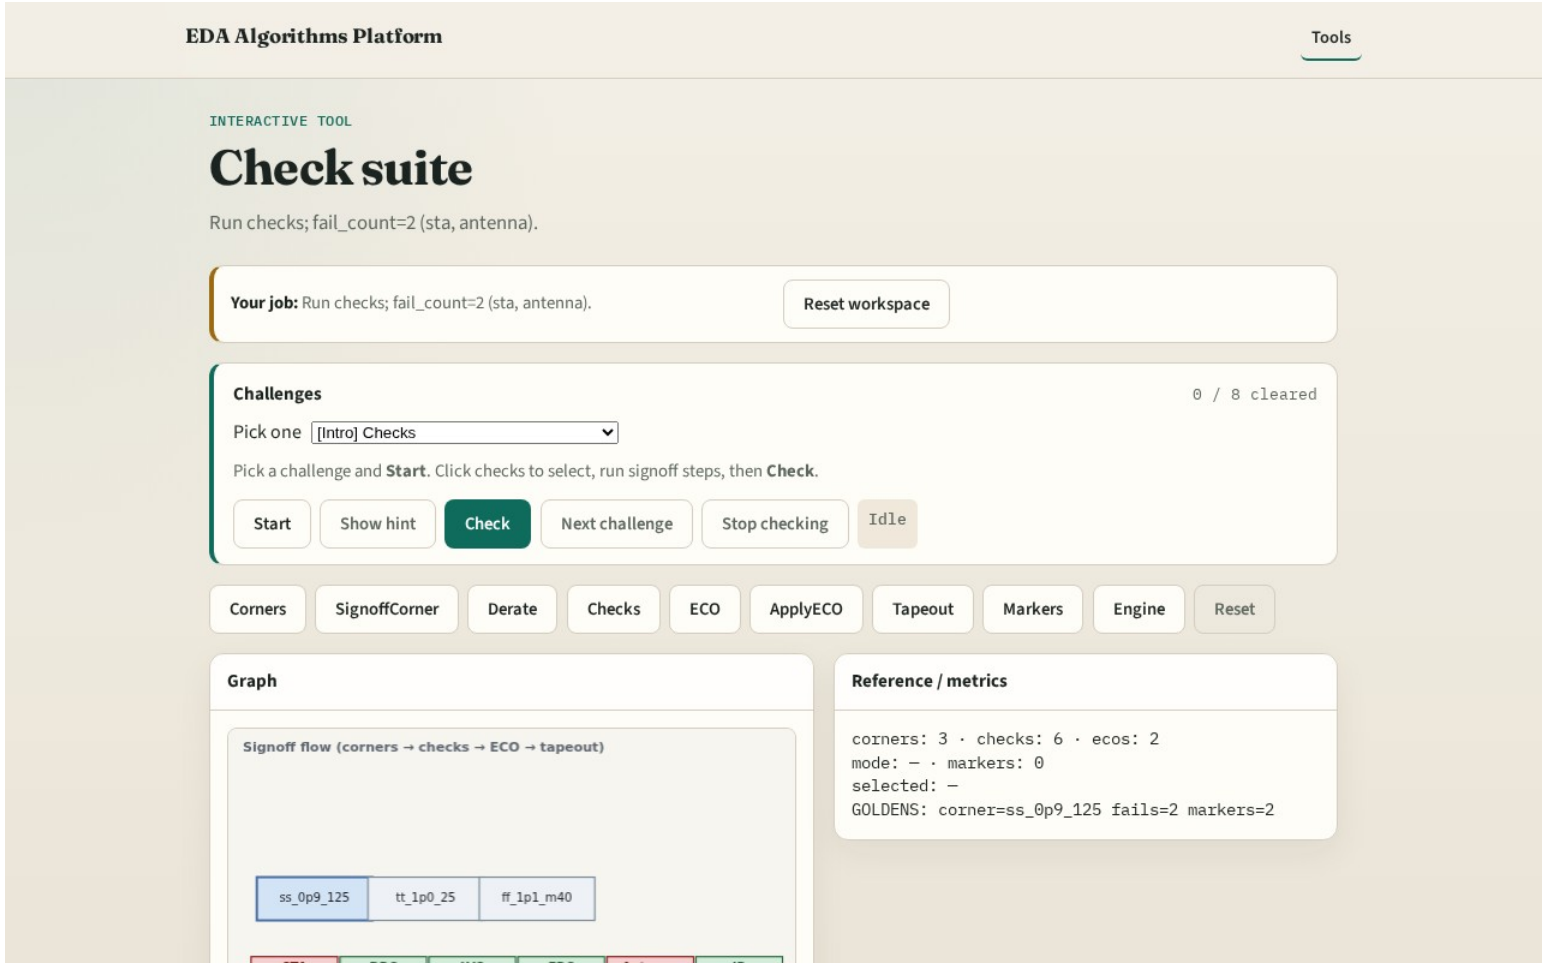

Antenna fail

Golden

Golden

Browser lab track

Browser lab starter

Implement track

- Call run_checks(); assert fail_count==2 and pass_count==4

Pitfalls

- Counting IR as fail
- Missing antenna in fail set

Your turn

- Next: ECO loop
