Why tapeout

Required tapeout gates block release until checks are clean

The idea

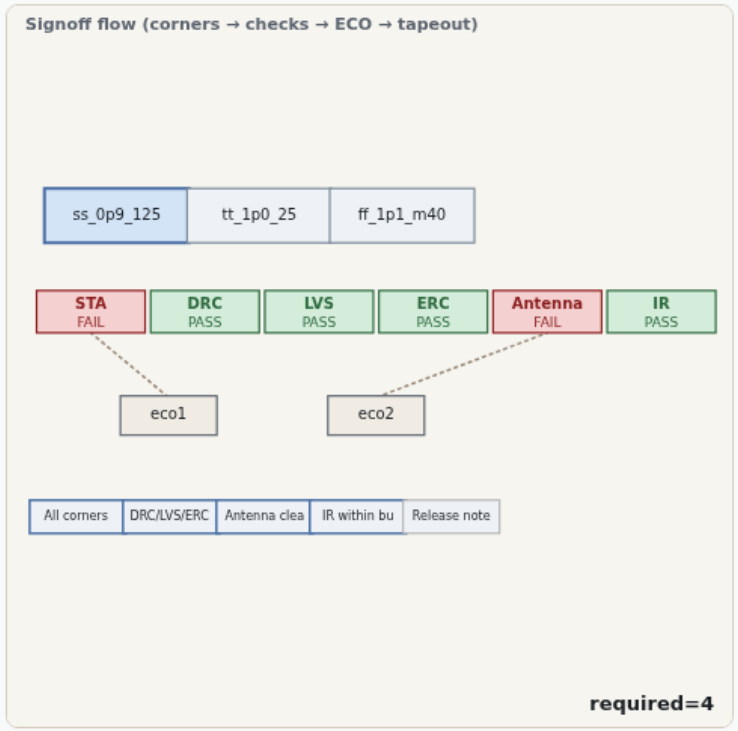

- GOLDEN: ready=false before ECO, ready=true after

Checklist

TAPEOUT ITEMS

Checklist

Step 1 / 5 · items · module04-01-tapeout-checklist

Explanation

Four required tapeout gates plus optional docs.

- tapeout

```
4 req
```

Checklist

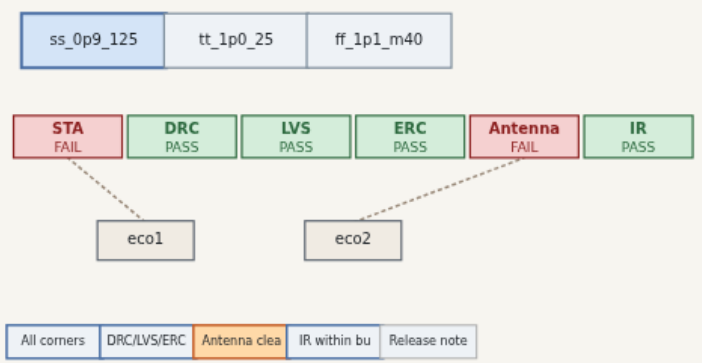

Before ECO

TAPEOUT ITEMS

Before ECO

Step 2 / 5 · before · module04-01-tapeout-checklist

Signoff flow (corners → checks → ECO → tapeout)

Explanation

Antenna fail blocks tapeout ready.

- before

```
not ready
```

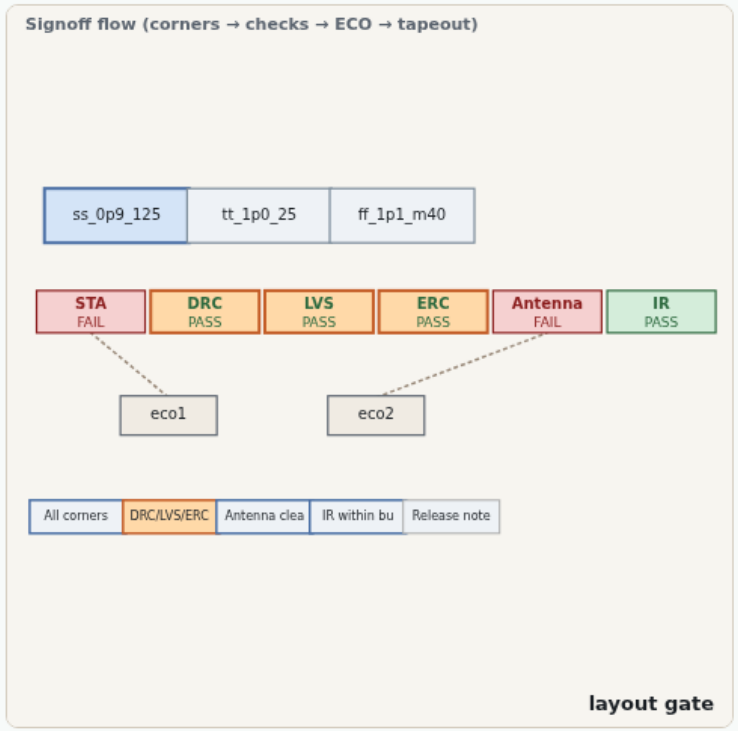

Before ECO

Layout gate

TAPEOUT ITEMS

Layout gate

Step 3 / 5 · t2 · module04-01-tapeout-checklist

Explanation

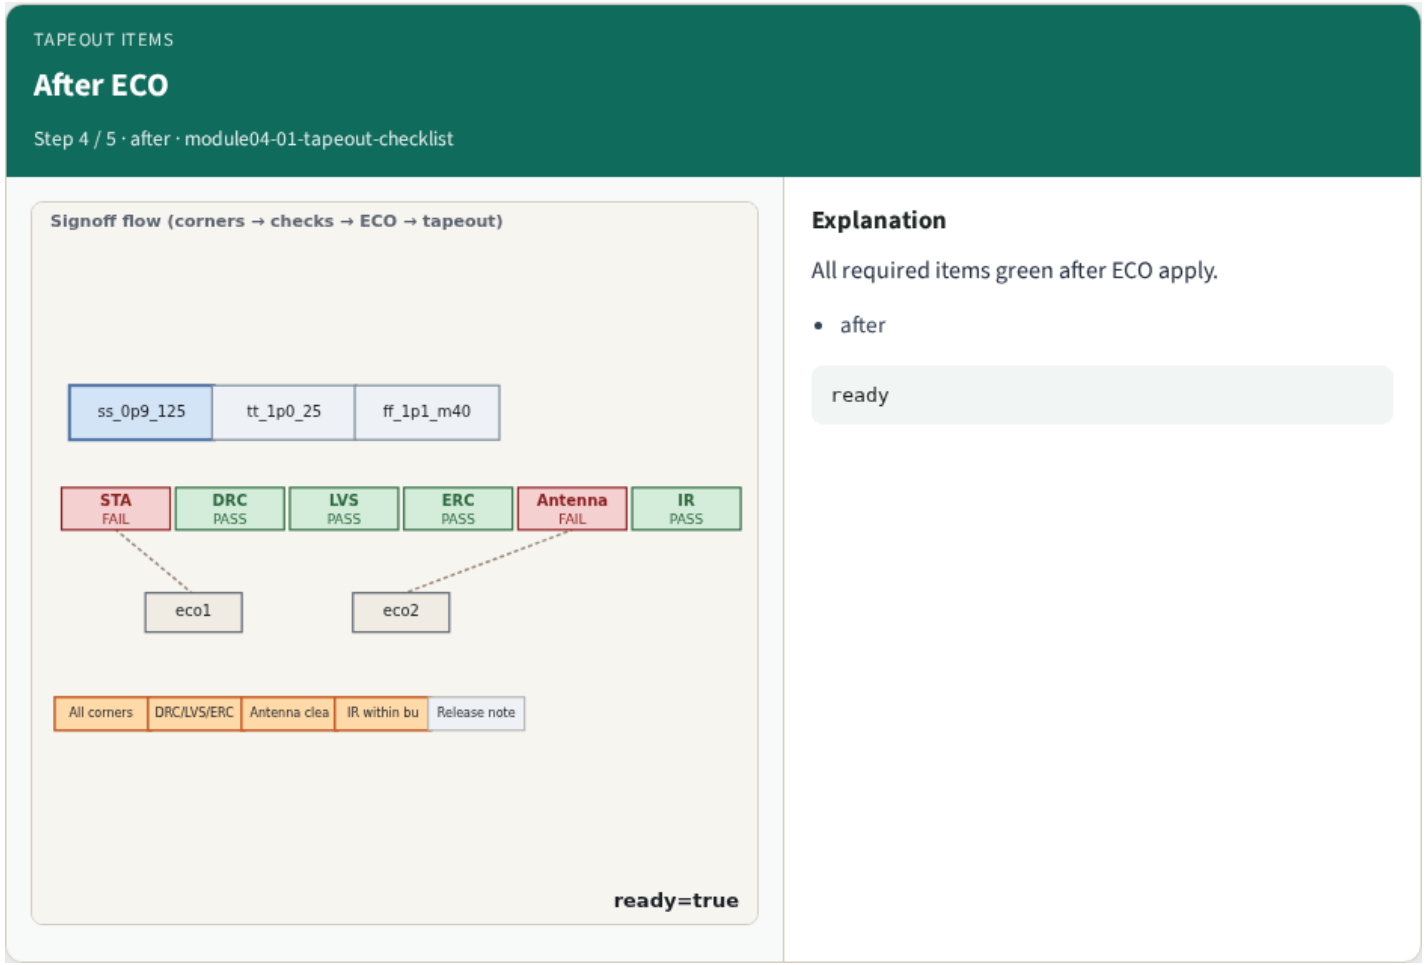

DRC/LVS/ERC must pass for t2.

- t2

```
pass
```

Layout gate

After ECO

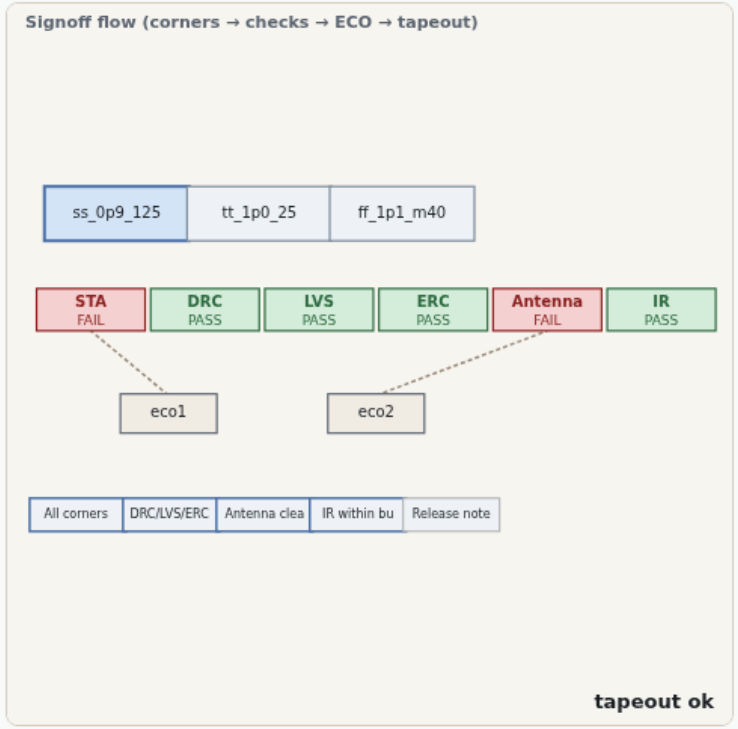

After ECO

Golden

TAPEOUT ITEMS

Golden

Step 5 / 5 · golden · module04-01-tapeout-checklist

Explanation

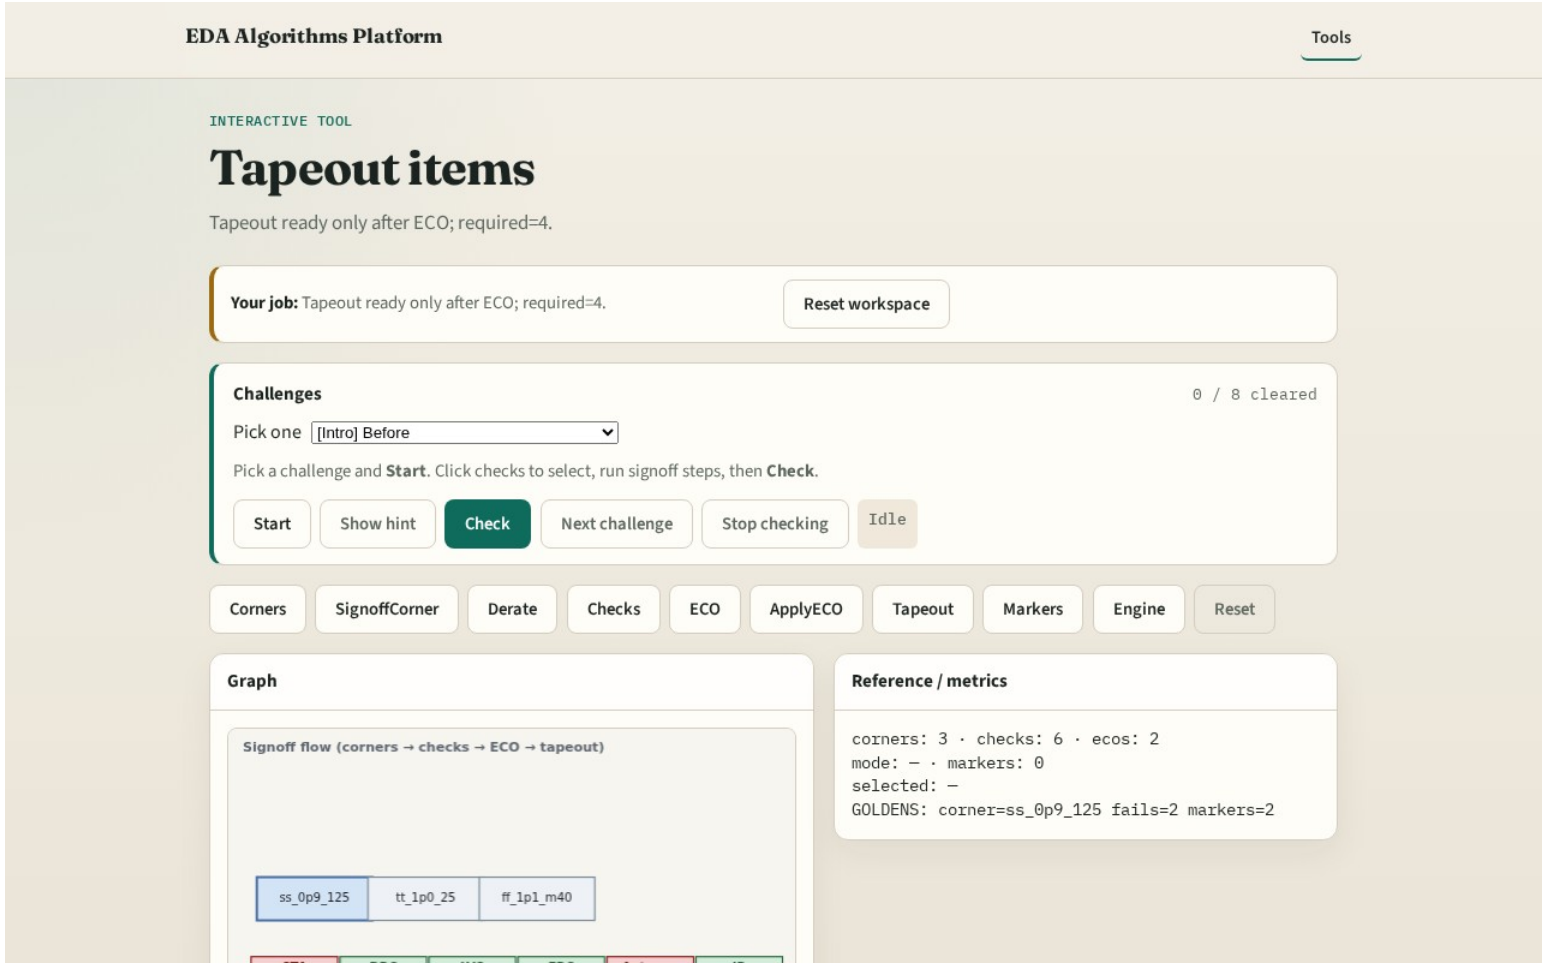

GOLDEN: ready only after ECO.

- GOLDEN

```
after
```

Golden

Browser lab track

Browser lab starter

Implement track

- Call tapeout_checklist(after_eco=False/True); assert ready flags

Pitfalls

- Ignoring optional vs required
- Checking before ECO only

Your turn

- Next: signoff markers
