Step 4 / 5 · hit · module01-03-width-checker

D width=1

Explanation

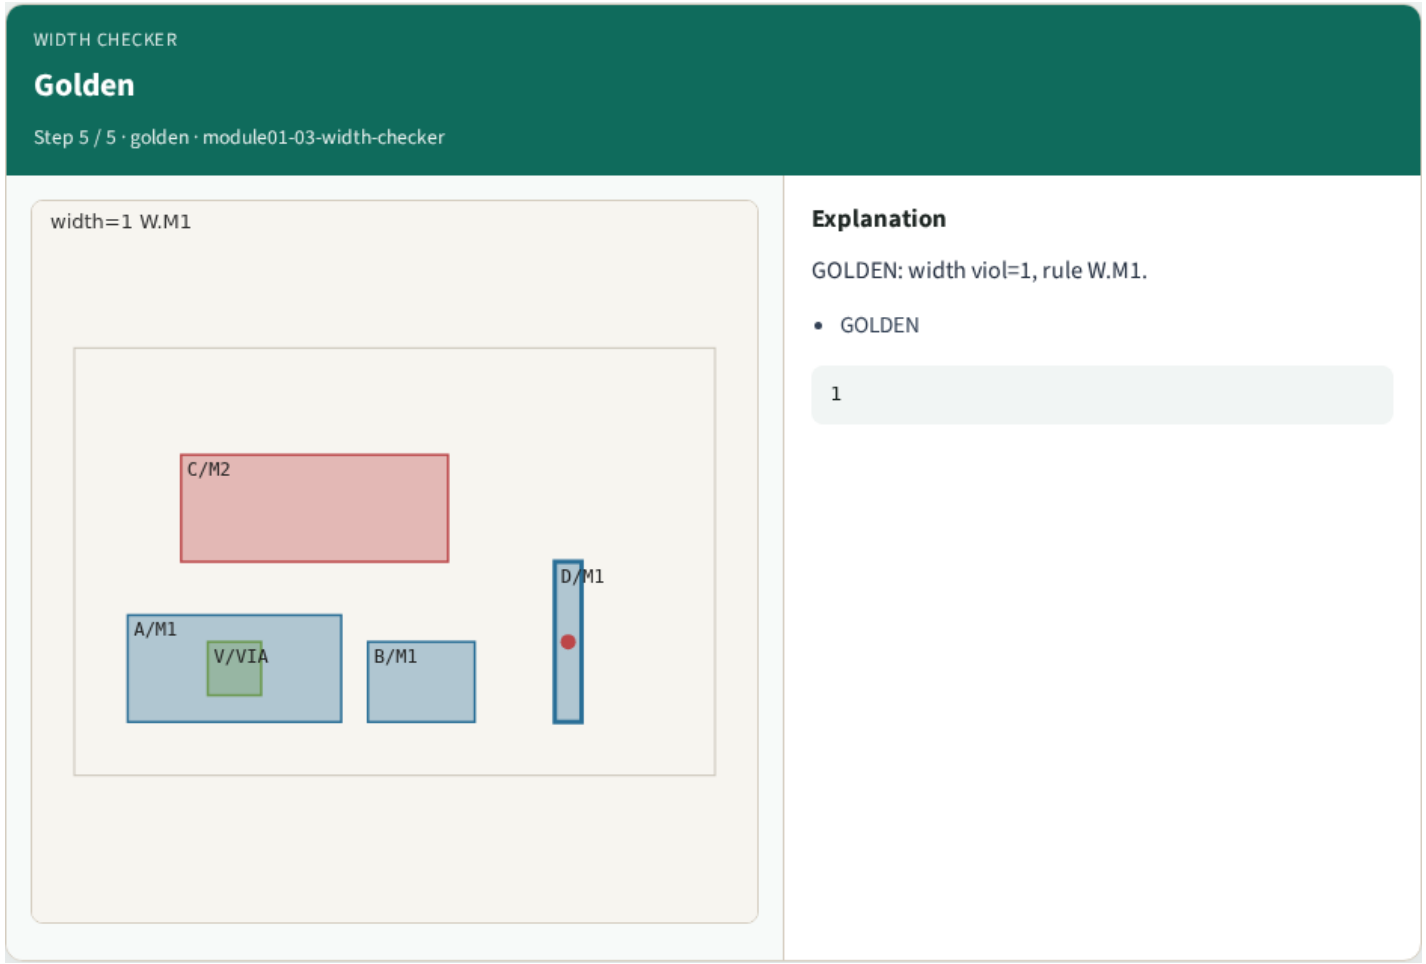

Shape D is too narrow — width=1.

- D

```
1
```

Browser lab track

Browser lab starter

Implement track

- Call check_width(); assert count==1 and violations[0].shapes==['D']

Pitfalls

- Using max edge instead of min dimension
- Missing rule_id on violations

Your turn

- Next: spacing checker
