Capacitance

Capacitance extract uses c_area*area + c_perim*perimeter on metals; skip VIA

The idea

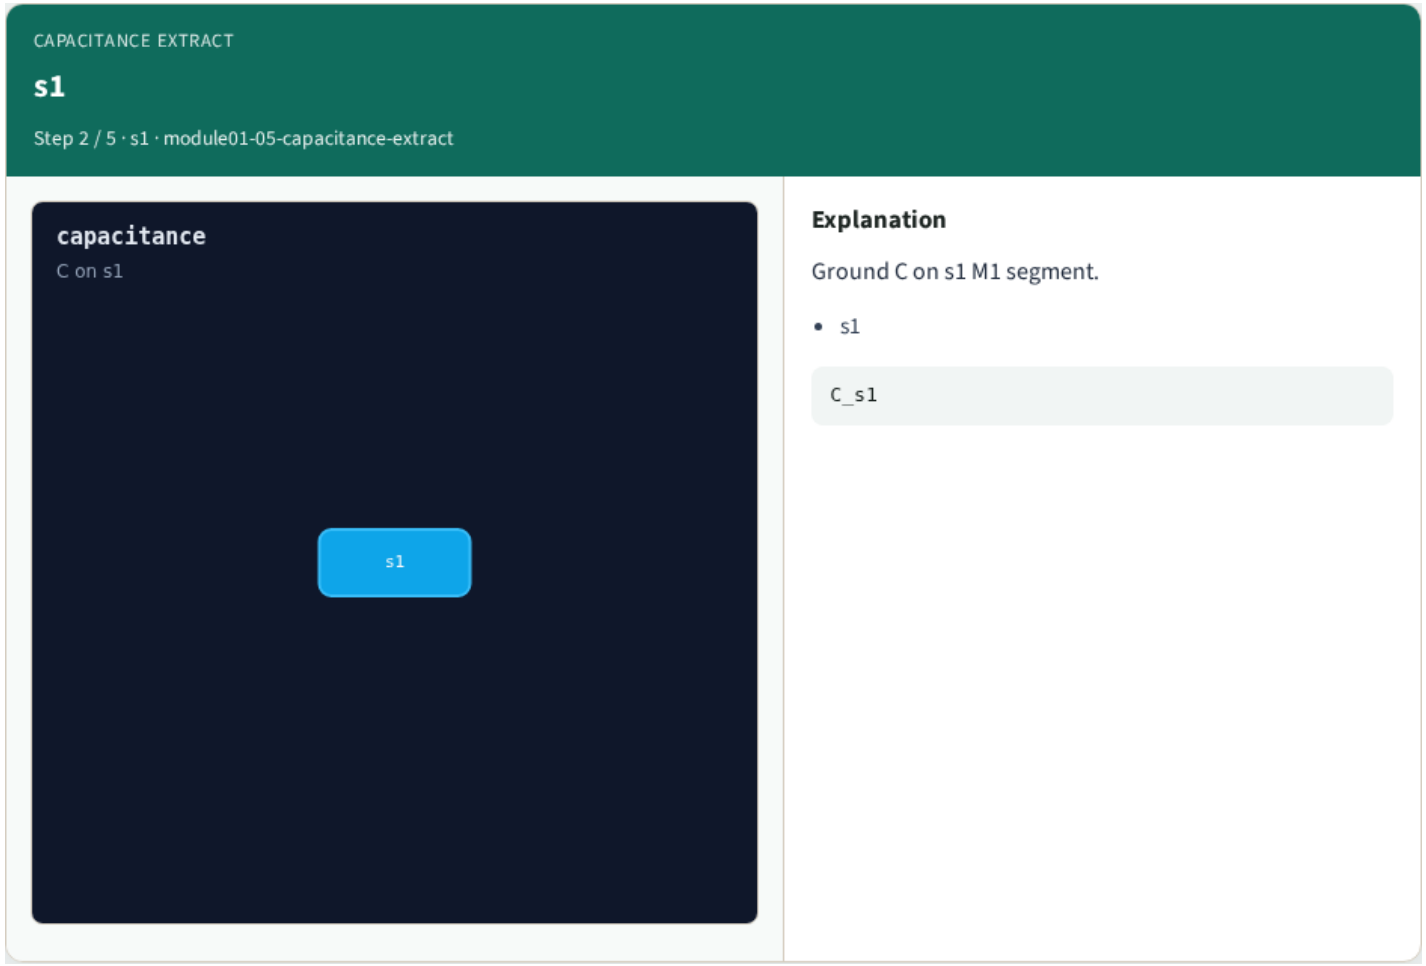

- GOLDEN: C_total=1.376; 3 caps

Formula

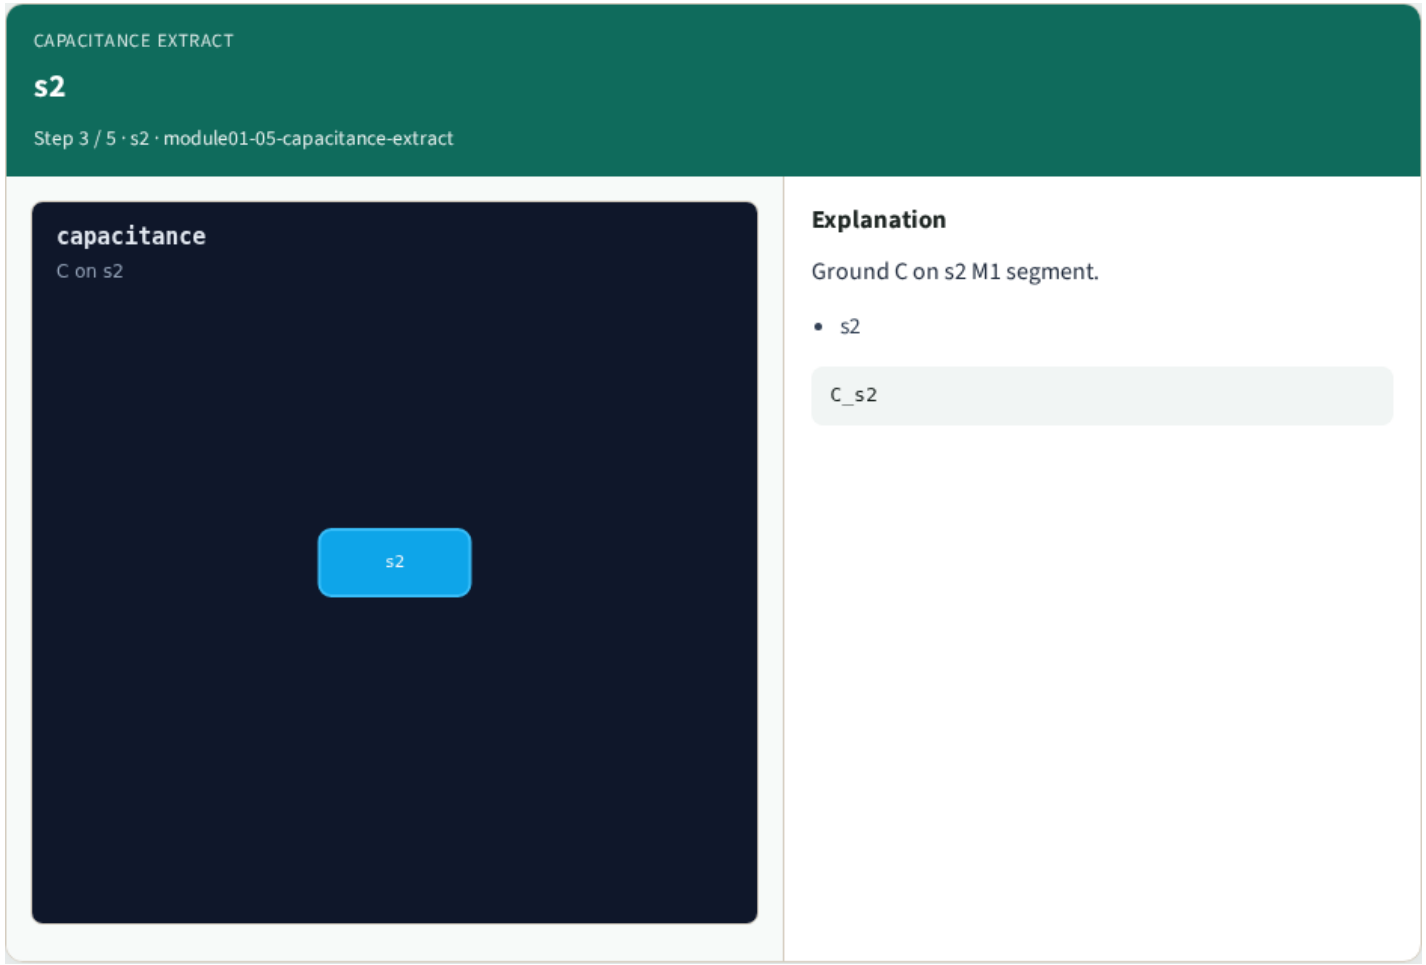

Formula

s1

CAPACITANCE EXTRACT
s1
Step 2 / 5 · s1 · module01-05-capacitance-extract
capacitance
C on s1
s1
Explanation
Ground C on s1 M1 segment.
s1
C_s1

Browser lab track

Browser lab starter

Implement track

- Call extract_capacitance(); assert c_total==1.376 and count==3

Pitfalls

- Adding VIA capacitance
- Using length instead of area for C

Your turn

- Next: RC network build
