Why contribute

Reading is not enough

The idea

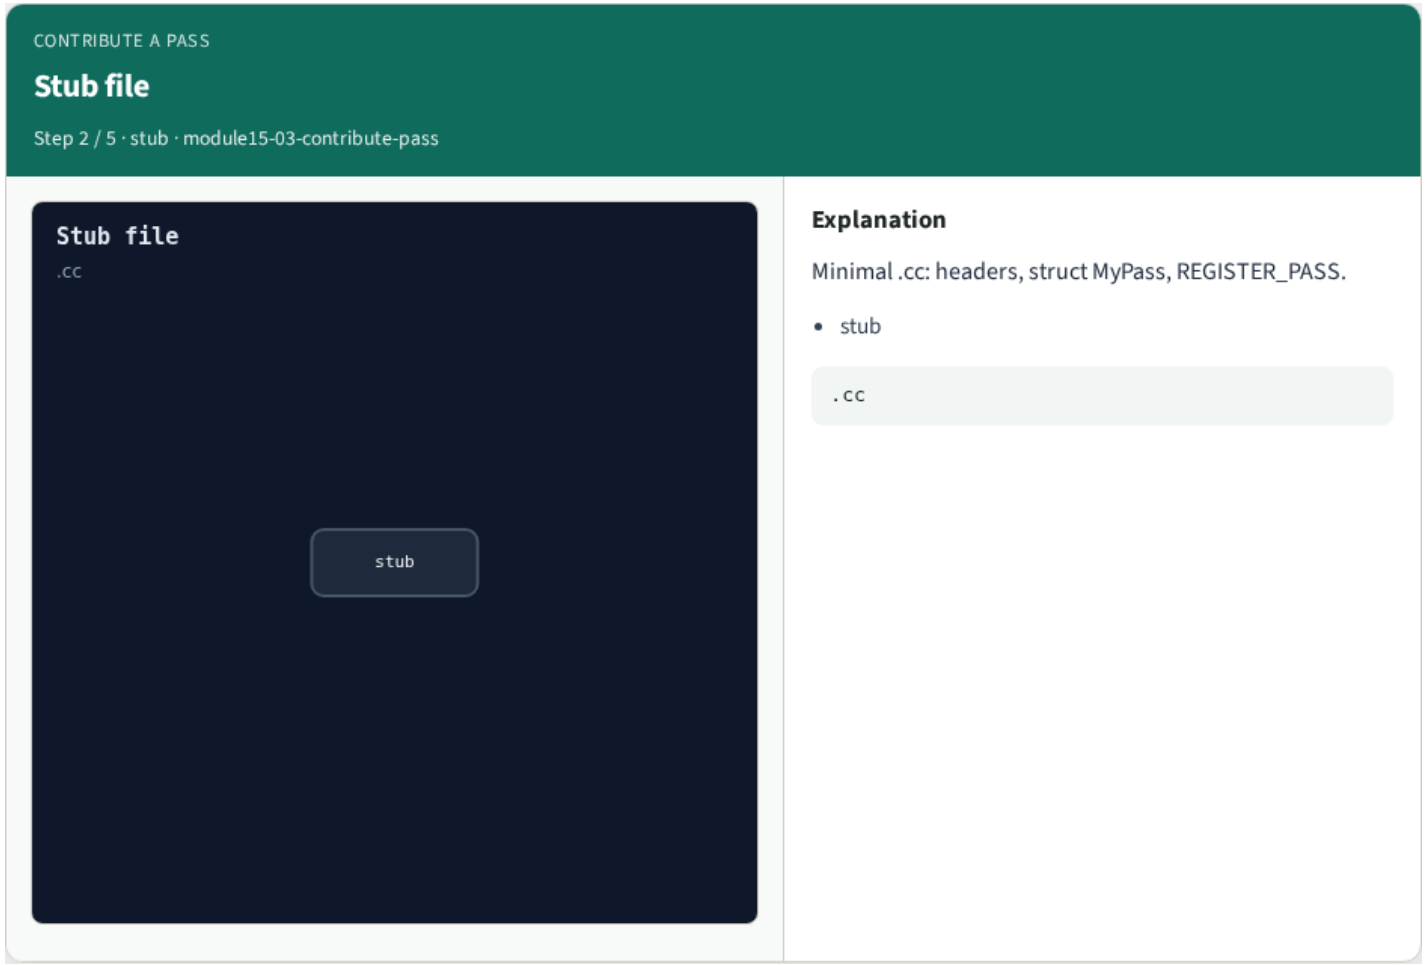

- GOLDEN: add passes/area/name.cc

Tree layout

Smoke

CONTRIBUTE A PASS
Smoke
Step 4 / 5 · smoke · module15-03-contribute-pass
Smoke
smoke
yosys -h
Explanation
yosys -h my_pass proves the command exists.
yosys -h
smoke

Smoke

Golden

Golden

Browser lab track

- Open **contribute-pass**
- Assemble the contribute checklist and check

Implement track

- Call contribute_pass(); assert checklist length and smoke cmd

Pitfalls

- Editing only docs
- Forgetting the build system entry
- Skipping help smoke

Try these

- From the common folder, call contribute_pass and print the checklist

Try these — try these

```
cd courses/learn_yosys/common
python3 -c "from internals_solvers import contribute_pass;
print(contribute_pass())"
```

Pseudocode

- Here is the contribute checklist in plain steps

Pseudocode — try these

```
path ← passes/demo/hello_pass.cc
REGISTER_PASS(HelloPass)
add to Makefile; rebuild
smoke ← yosys -h hello_pass
```

Next

- Complete the quiz for this part
- Wrap the Yosys path , you can use Yosys and open the C++ tree with intent
