Explanation
GOLDEN: engine ok=True.
GOLDEN
ok

OK

Browser lab track

- Open **yosys-algo-engine**
- Run the full chain and Check ok

Implement track

- Call yosys_algo_engine(); assert ok is True

Pitfalls

- Passing a mutated design mid-chain
- Asserting only one stage and calling it done

Try these

- From the common folder

Try these — try these

```
cd courses/learn_yosys/common
python3 algo_solvers.py
```

Pseudocode

- Here is the check in plain steps

Pseudocode — try these

```
run mux, dff, clean, expr, merge, techmap, extract, memory, fsm, abc
ok if every golden matches
```
