Path complete

You finished Part A pass map, Part B real Yosys evidence on tiny_and_or.v, and Part C algorithms bound to real Yosys

What you can do

- You can name the pass map, run real Yosys scripts

Evidence

- Checked-in logs and goldens under common/logs and common/evidence

Three layers

- Pass-map labs teach the pass order
- Real modules teach the CLI, RTLIL, and evidence
- Algorithm labs teach the moves and bind them to Yosys

Next

- Complete the quiz for this part
- Continue to OpenROAD or OpenLane when you are ready for place and route evidence
