DP feasibility

A subgraph that is bipartite can still be double-patterned even when the full chip is not

The idea

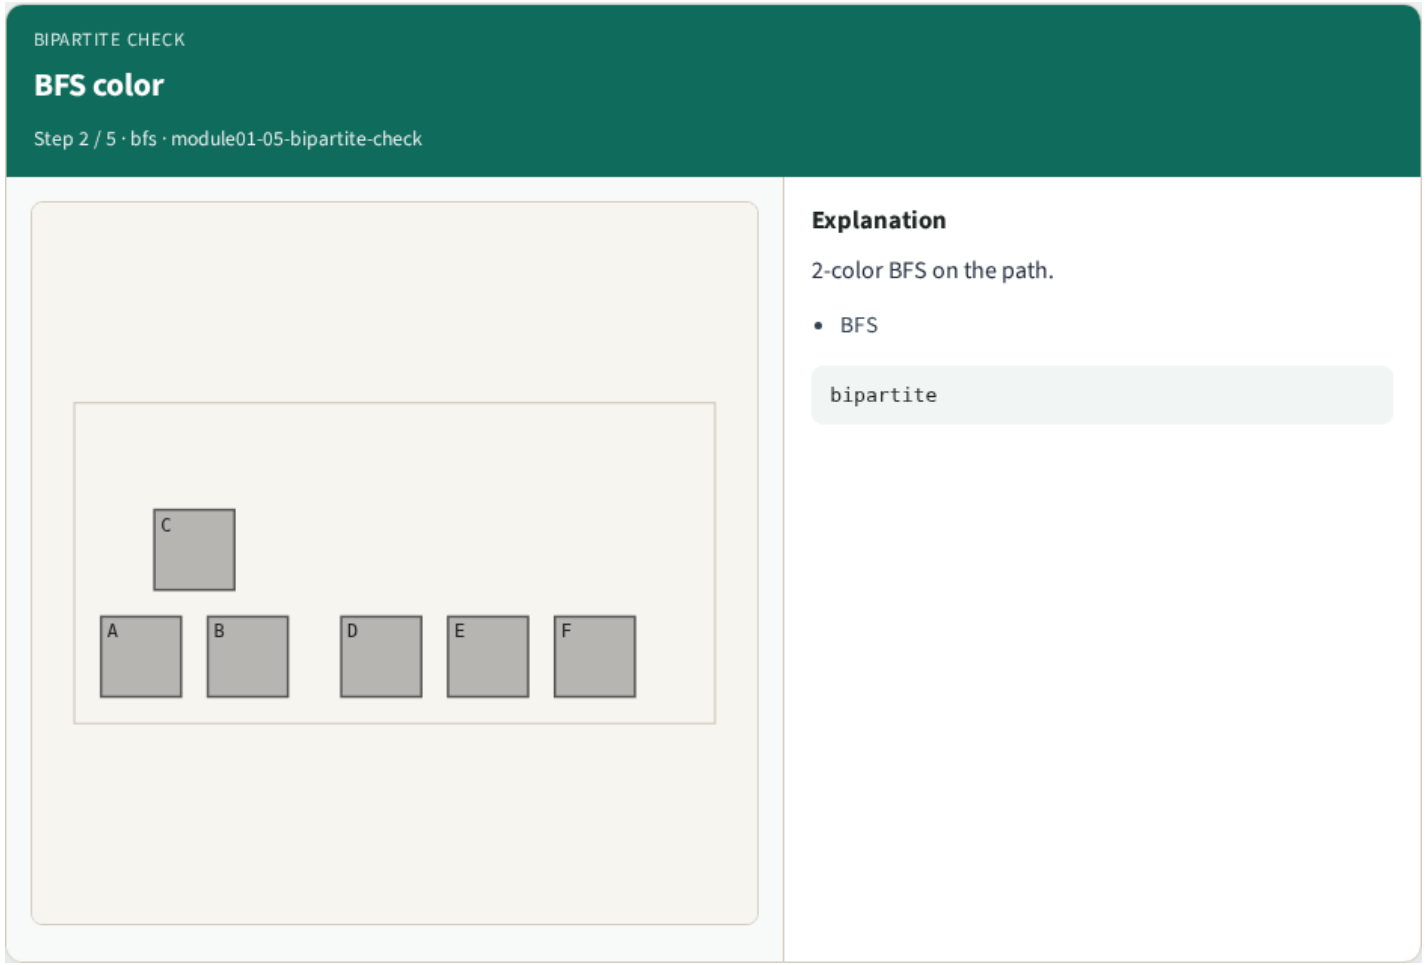

- GOLDEN: path_lele ok=True on nodes D, E, F

Subgraph

Colors 0/1

OK

BIPARTITE CHECK

OK

Step 5 / 5 · ok · module01-05-bipartite-check

ok=true

Explanation

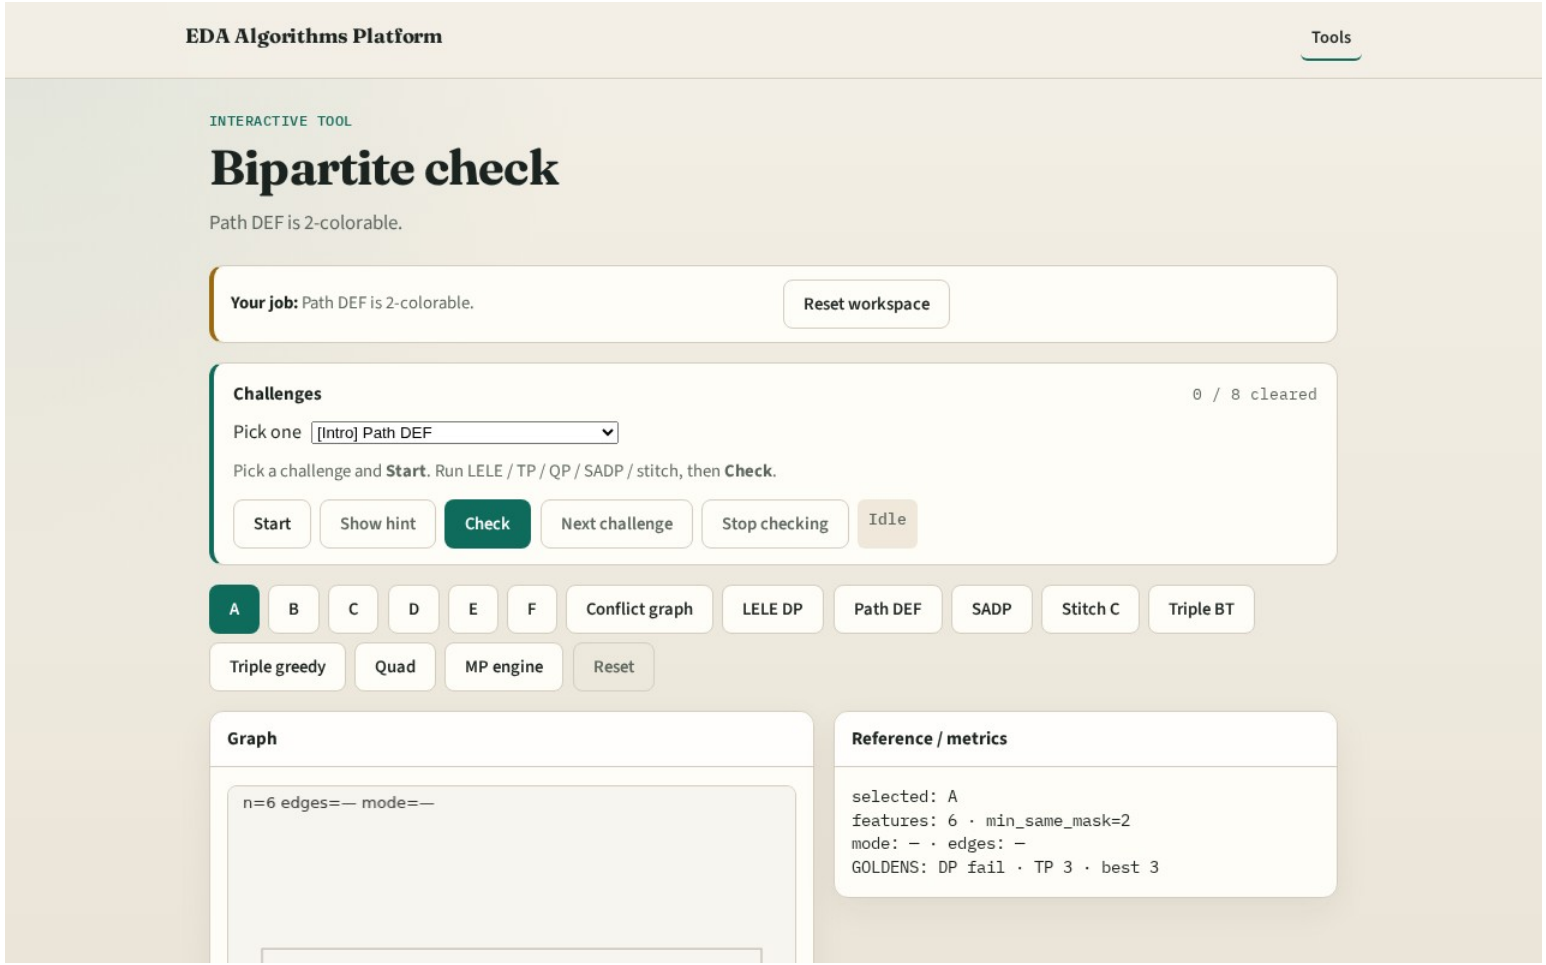

GOLDEN: path_lele ok=True.

- GOLDEN

```
ok
```

OK

Browser lab track

Browser lab starter

Implement track

- Call path_lele(); assert ok is True

Pitfalls

- Testing full graph when the lesson is subgraph feasibility
- Confusing LELE with SADP

Your turn

- Next: SADP mandrel assignment
