Assign

DOUBLE SADP

Assign

Step 4 / 5 · asg · module02-01-double-sadp

m=3

Explanation

Greedy MIS → mandrels A,D,F.

- greedy

```
A,D,F
```

Assign

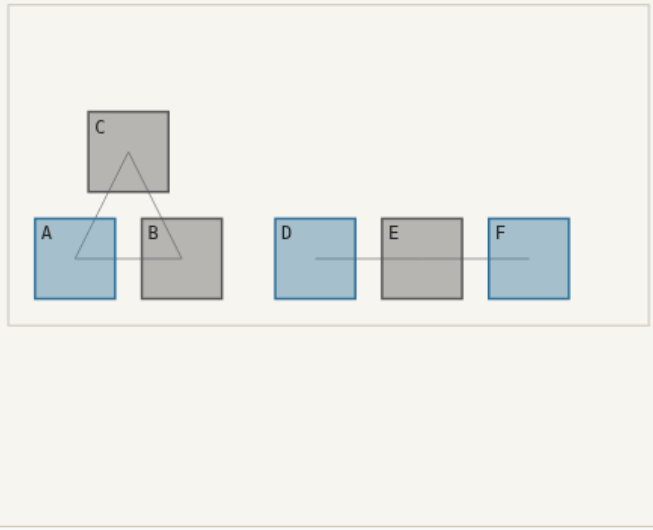

Count 3

DOUBLE SADP

Count 3

Step 5 / 5 · n · module02-01-double-sadp

mandrels=3

Explanation

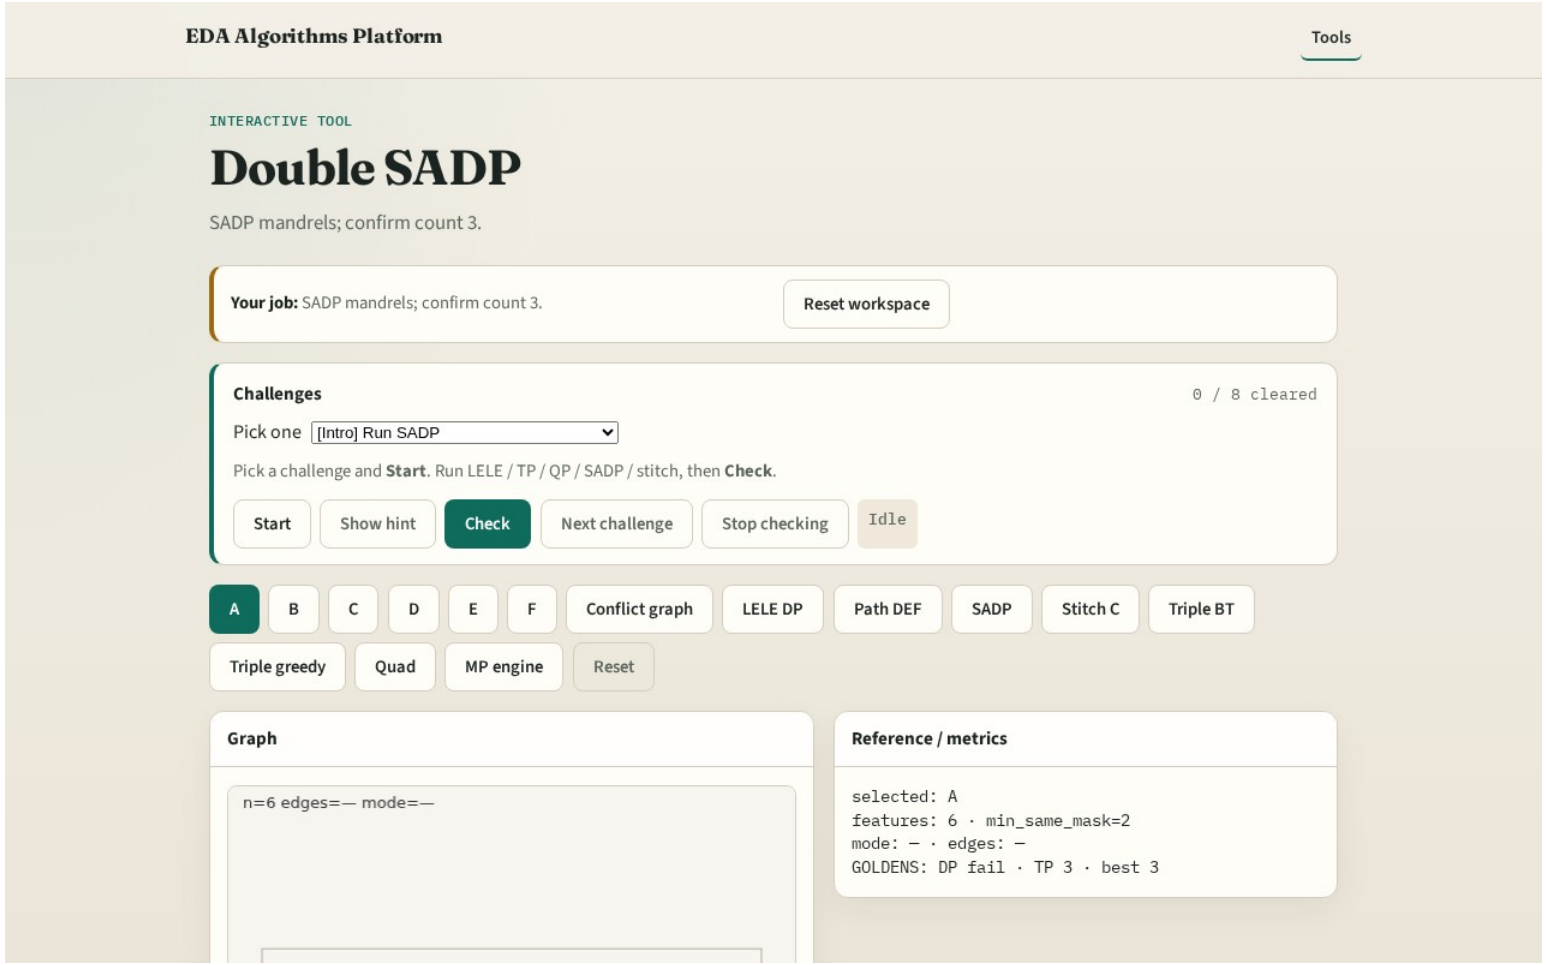

GOLDEN mandrel_count=3.

- GOLDEN

n=3

Count 3

Browser lab track

Browser lab starter

Implement track

- Call sadp_assign(); assert mandrel_count==3

Pitfalls

- Treating SADP as 2-coloring
- Expecting same result as LELE

Your turn

- Next: stitch to break odd cycles
