Stitch overview

Stitching splits a feature so conflicts drop , restoring DP feasibility without extra masks

The idea

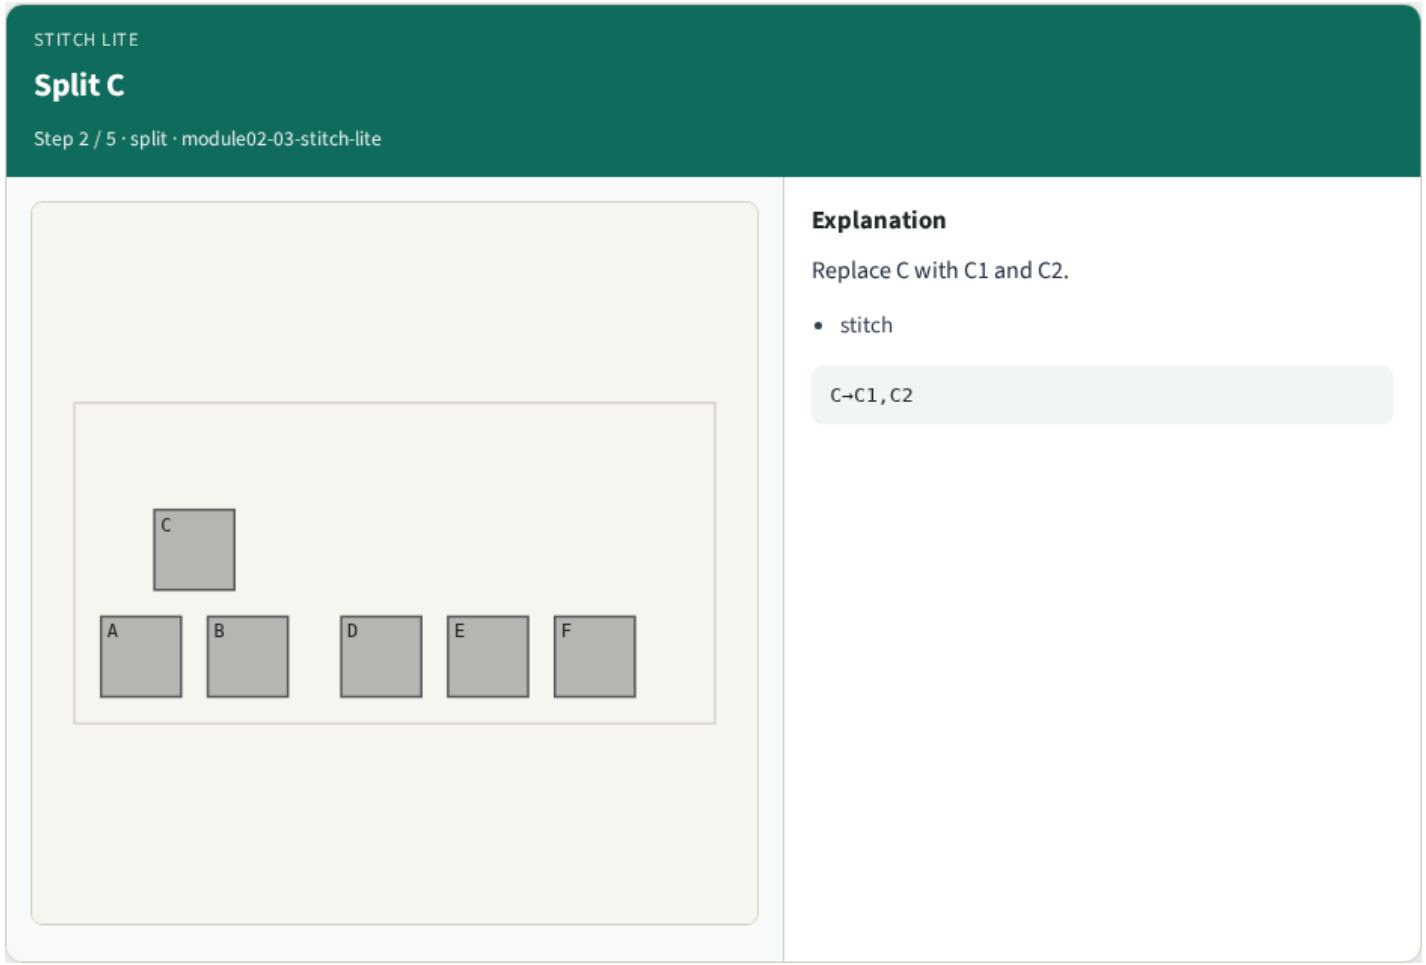

- GOLDEN: stitch_makes_dp True after splitting C → C1, C2

Odd cycle

dpOk=true
C1:1
C2:0
A:0
B:1
D:0
E:1
F:0
Explanation
GOLDEN stitch makes DP ok.
GOLDEN
dp_ok

DP OK

Browser lab track

Browser lab starter

Implement track

- Call stitch_feature('C'); assert dp_ok is True

Pitfalls

- Splitting without reducing conflicts
- Assuming stitch always needs TP

Your turn

- Next: triple patterning with 3 colors
